GENERAL SAFETY INFORMATION

WARNING! Read and understand all instructions. Failure to follow all instructions listed below may result in electric shock, fire and/or serious personal injury.

SAVE THESE INSTRUCTIONS!

- ※ Prevent object and liquid entry. Never spill liquid of any kind on the video display unit. Liquid increases the risk of electrical shock and damage to the product.
- ※ The unit is not shock-resistant. Do not use Explorer Compact as a hammer and avoid high impact resultant from things such as dropping the unit from height
- ※ Do not immerse camera handle or LCD screen in water. Avoid moisture, and store product in a dry place. Such measures reduce the risk of electric shock and damage. **The lens and the tube are water resistant when the unit is fully assembled, but the LCD screen and handle are not.**
- ※ Do not use the camera if condensation forms inside the lens. Let the water evaporate before using again.
- ※ Turn off the system if it is not in use.
- ※ Attention should be given to the environmental aspects of battery disposal.
- ※ Remove the batteries when cleaning the unit.
- ※ Remove the batteries before storing the unit for a long time.
- ※ When necessary, REPLACE ALL FOUR (4) BATTERIES in this unit with new ones, not one (1) or two (2) batteries at a time.
- ※ Use only the size and type of battery specified.
- ※ Be sure to install the battery with the correct polarity as indicated in the battery compartment.
- ※ Properly dispose of batteries. Exposure to high temperatures can cause batteries to explode, so do not dispose of in a fire. Place tape over the terminals to prevent direct contact with other objects.
- ※ Some countries have regulations concerning battery disposal. Please follow all applicable regulations.

WELCOME

Congratulations on your purchase of our inspection video camera with recordable color LCD screen, the EXPLORER COMPACT. Please read the user manual carefully before using this product. This product is designed as a remote inspection device, capable of recording video/taking pictures. Appropriate for use in surveying pipes or other hard-to-reach places, equipment or furnishing installation, car repair, etc. Features include waterproof LED lens, real-time recording, and micro SD card storage.

FEATURES

- Allows for easy surveying of small, hard-to-reach places
- Mini water-proof camera with 1m (3ft.) flexible extended tube
- Manufactured and tested to IP67 waterproof standard
- 2.7" TFT-LCD monitor
- OSD manu for operation
- Video recording capability, supports up to 32GB micro SD card
- Adjustable brightness on lens-mounted LED light
- 3 useful accessories included: hook, mirror and magnet
- Lightweight, handheld design, flexible and convenient to use

PACKING LIST

Micro
SD Card

Only for GL8822

Mini 17mm Waterproof LED Lens

Hook x 1

Magnet x 1

Mirror x 1

(Optional)

Extension Tube

Only for GL8823

Mini 9mm Waterproof LED Lens

Hook x 1

Magnet x 1

Mirror x 1

Rubber ring x 1

STRUCTURE

INSTALLATION

To Install Batteries (Dry your hands before installation or replacing batteries.)

1. Remove battery cover;
2. Insert four (4) AA batteries into their appropriate slots, with proper orientation, as indicated on the battery compartment;
3. Replace battery cover.

To Attach Flexible Tube with Handle

To connect the flexible tube camera with control handle, first make sure that the keyed end of the tube is aligned with the slot in the handle, then use slight force to push them together. Once properly aligned, twist the treaded knob clockwise until the connection is securely in place.

To Install Extension Tube

To connect the extension tube, first align the keyed end with the slot in the handle. Use slight force to push them together. Once properly aligned, twist the treaded knob clockwise until the connection is securely in place. Repeat this process to connect the other end of extension tube to flexible camera tube.

To Install Accessories

The three (3) included accessories (mirror, hook and magnet) are all attached to the camera in the same way as illustrated below:

For GL8822

For GL8823

For GL8822: to prepare accessory for installation, push down on stem-side of black interface while pulling away from adjacent side. This will open the base of the accessory. Next, align inside of stem-side to either treaded surface at the base of camera head. Tighten to secure the accessory in place.

To Insert SD Card

After SD card is inserted into SD card slot successfully, an SD card icon will appear on the monitor screen; otherwise, the 'no SD card' icon will show.

NOTE: If the device fails to read the TF card due to late insertion or some problem of the TF card, the screen displays "FORMAT TF CARD". If the TF card is in normal condition, press OK; otherwise, press YES to format the TF card.

To Connect USB Cable

Use the provided USB cable to connect the product to any PC with a USB slot. Your computer should automatically recognize the new hardware, which you may browse by double-clicking on the My Computer icon on your desktop, and then navigating into the Mobile Disk directory.

Video Output

Insert video cable into the video out socket of the monitor, insert the other end of the cable into the video in jack of any compatible TV or display device. The LCD monitor is now capable of outputting high quality video to another display.

OPERATION

Switch on Camera

1. Press and hold on the power switch for about 3 seconds to turn on the camera, the power indicator will illuminate and the LCD will become viewable.

2. When in use, the tube should easily maneuver itself into position. Do not apply excessive force.
3. The flexible tube can be bent into numerous shapes that may help you explore areas you otherwise thought were impossible to see.
4. The accessories included with EXPLORER COMPACT can be used to retrieve small items like dropped rings or screws.

Zoom in Picture

In real-time monitoring mode, press the  button to zoom in (1.0X, 1.5X, 2.0X,3.0X) the picture.
